

clairvoyant readings & healings by JRo

~~~~~  
**Discover your relationship to space-time & the currents of energy that manifest you.**

My reading approach is an **interactive experience**. Together we reveal an opportunity to create a healing or change in your energy-body, and how to do this any time you want. Be willing to learn how to read your own energy and change it! This is what I can help you do, it's easy, fun and nothing you have ever experienced before. **We are super-positioned energy precursors of consciousness. Your body is energy and our lives reality-based events.**

Learn how you occur right here right now as life.  
And learn how to change it, guide it and ultimately let go.

*"My session with Jeff helped get me unstuck and onto a path that has been nothing short of a miracle. I owe my life to him and am looking forward to another session and more insight." ~ Louise*

**JRo will be in Portland from June 1-11, 2010**
